look vasche sottopiano _undercounter bathtubs_ bañeras bajo encimera

look e idrolook sono costituite da elementi strutturali in pse accoppiati con innesti di fissaggio e da un bacino in acrilico di alta qualità.

look and idrolook are made of EPS structural elements coupled with fastening connections and a high-quality acrylic basin.

look e idrolook están constituidas por elementos estructurales de EPS acoplados con empalmes de fijación y una pila de acrílico de alta calidad.

look

idrolook

look vasche sottopiano _undercounter bathtubs_bañeras bajo encimera

idro-look system

Sistema di distribuzione e diffusione integrato a doppia camera, con air-ject a iniezione diretta.

Double chamber integrated distribution and diffusion system, with air-ject direct injection.

Sistema de distribución y difusión integrado de doble cámara, con jet de aire de inyección directa.

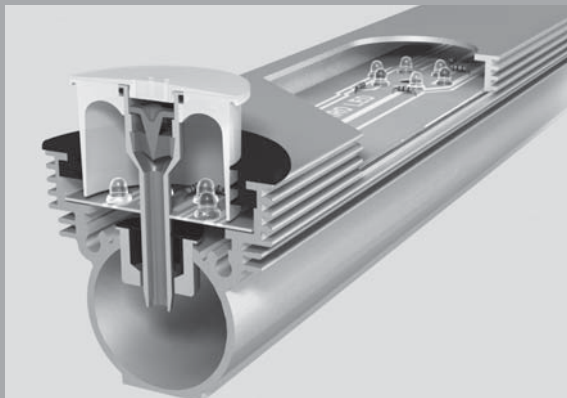

color-look system

Sistema cromoterapico a led luminosi ad alta efficienza. diffusione della luce attraverso 16 air-jects integrati.

Colour therapy system with high-efficiency luminous LED's light diffusion through 16 integral air-jects.

Sistema cromoterápico con led luminosi de alta eficiencia. Difusión de la luz a través de 16 jets de aire integrados.

water-drain system

Sistema di drenaggio di eventuale condensa all'interno della camera di distribuzione.

System for drainage of possible condensation in distribution chamber.

Sistema de drenaje del posible vapor de condensación presente en el interior de la cámara de distribución.

mk24 blower

Blower ad elevato rendimento, alimentata a 24V, con potenza di 240W. Centralina e trasformatore inseriti su slitta mobile per ispezione.

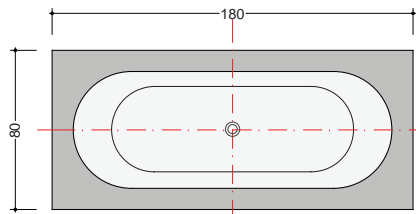

High-performance blower powered at 24V, with power of 240W. Control unit and transformer inserted on slides for inspection.

Blower de elevado rendimiento, con alimentación 24V y potencia 240W. Circuito de control y transformador incorporados en corredera móvil para permitir su inspección.

L.CLB.000.000.00

dati tecnici

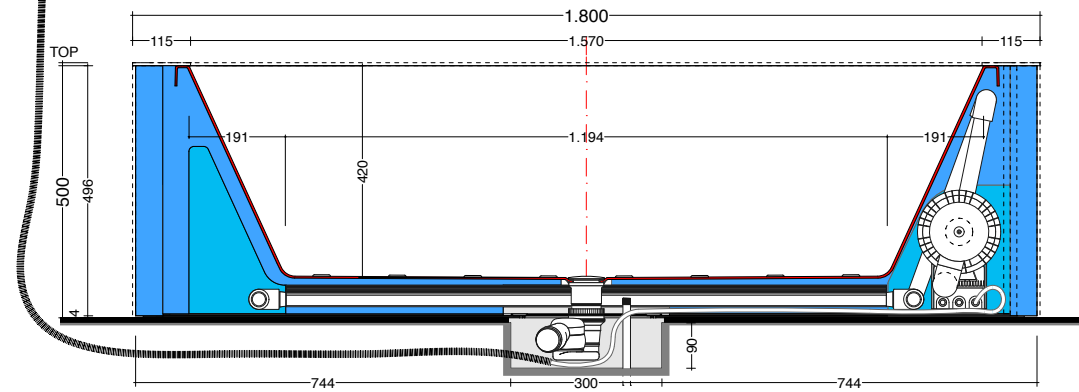

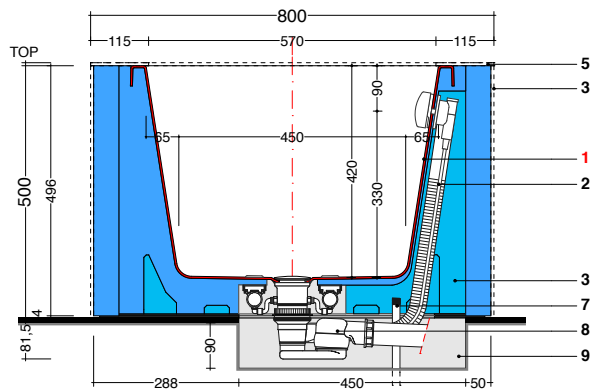

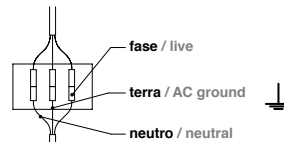

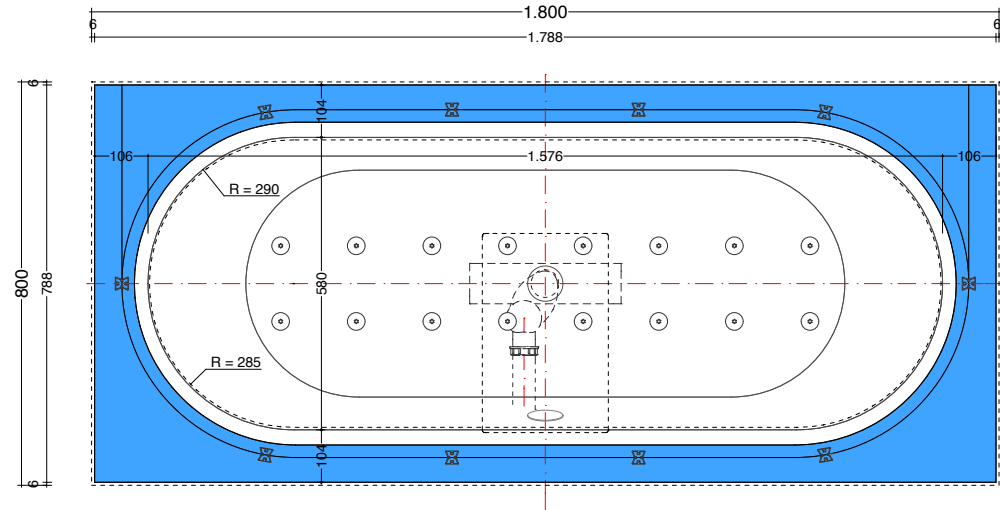

- bacino in acrilico colato sp.4mm
 - corpo in EPS densità: 30 da N/mc
 - capacità interna: 160 lt
 - rivestimento laterale makro sp.: 6mm
 - idrolook: motore di serie a destra
 - tensione di rete: 220V
 - tensione soffiante: 24V
 - potenza soffiante 220W
 - potenza cromoterapia: 40W
- 1_ bacino in acrilico colato
 - 2_ struttura in polistireno espanso (PSE)
 - 3_ pannello esterno in pse
 - 4_ rivestimento laterale
 - 5_ top
 - 6_ colonna di scarico (lunghezza cavo 57,5 cm)
 - 7_ eventuale allacciamento da troppo pieno (ETP)
 - 8_ sifone Ø 40 mm
 - 9_ massetto ribassato per allacciamenti H.90 mm

technical information

- basin in cast acrylic thk. 4mm
 - body in EPS density: 30 da N/mc
 - internal capacity: 160 lt
 - panneling makro thk. 6mm
 - idrolook: motor standard on right
 - mains voltage: 220V
 - blower voltage: 24V
 - blower power: 220W
 - colour therapy: 40W
- 1_ basin in cast acrylic
 - 2_ expanded polystyrene structure (EPS)
 - 3_ external polystyrene panel
 - 4_ panneling
 - 5_ top
 - 6_ drain column (cable length 1.57,5 cm)
 - 7_ possibility to connect to deck-mounted tapware
 - 8_ siphon Ø 40 mm
 - 9_ lowered floor slab for connections H.90 mm

datos técnicos

- pila de acrilico colado de 4 mm de espesor
 - cuerpo de EPS densidad 30 N/mc
 - capacidad interna: 160 lt
 - revestimiento sp.: 6mm
 - idrolook: motor de serie a la derecha
 - tensión de red: 220V
 - tensión soplante: 24V
 - potencia soplante: 220W
 - potencia cromoterapia: 40W
- 1_ pila de acrilico colado
 - 2_ estructura de polistireno densidad (EPS)
 - 3_ panel externo de polistireno expandido (EPS)
 - 4_ revestimiento
 - 5_ encimera
 - 6_ columna de desagüe (longitud cable 57,5 cm)
 - 7_ posible conexión suministro borde bañera
 - 8_ sifón Ø 40mm
 - 9_ bloque rebajado para conexiones H.90 mm
